Over the last 17 plus years that Shed Windows and More, Inc. ® has been in business, we have built long lasting relationships with our customers. We would love to invite you to be part of our family and community here at Shed Windows and More, Inc.® by providing the best quality and service in the shed, playhouse, portable building, & specialty building industry.

Why Shed Windows and More?

When you build any kind of building, there is a certain quality and standard aspect that you expect it to have before you put your name on it and give the customer access to it. Shed Windows and More, Inc. strives to meet and exceed your quality expectations for your building(s). Why put a product in your building of lesser quality? This is one of the attributes that Shed Windows and More, Inc. follows in everyday practices.

In sales there are four things we generally look at Price, Quality, Service, & Relationship.

Price: This is a category that a lot of people focus on and do not look at the whole picture. Shed Windows and More, Inc. is not the cheapest, but all products are priced competitively.

Quality: Shed Windows and More, Inc. doesn't want you to put a product into your building that does not meet or exceeds your building's quality, instead we would rather see you strive to meet and exceed those quality expectations.

Service: There are too many people within today's society that comment on poor service across all businesses. We are family run, and service has been our biggest strength for years. We always have staff available to answer phones and we try to help in any way we can.

Relationship: Yes, this not a standard attribute for sales, but it is for us. Having a great relationship has many benefits, which help us build our open and honest communication with our customers.

Ordering:

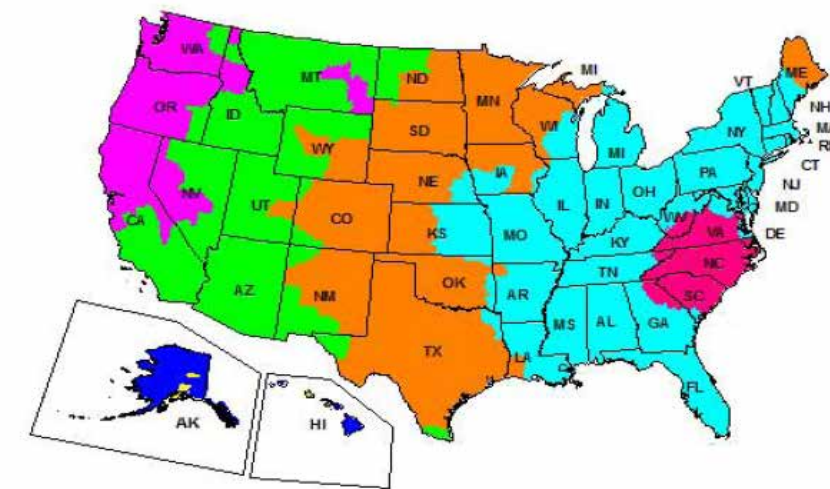

You can place your order several different ways:

1. Call our customer service at (843) 399 - 1820 Mon: - Fri: 8am - 4pm EST
2. On our website at www.shedwindowsandmore.com or shop.shedwindowsandmore.com
3. Email us at info@shedwindowsandmore.com

Important – Do not email your credit card information. Please provide a daytime number that we can contact you by. Once the order has been prepared, we will reach out to you.

Shipping:

Our processing time is 1-2 business days depending on the time of day your order is placed. We ship via Priority Mail (small items), FedEx Ground/Home Delivery, FedEx Express, UPS Ground, or Freight Truck. Our warehouse will determine the least expensive way to ship you items to you. If you require a faster service, please call in your order so we can quote you prices on 2nd day air or next day air.

■ 1 Day ■ 2 Days ■ 3 Days ■ 4 Days ■ 5 Days ■ 6 Days ■ 7+ Days

Freight Truck LTL/FTL Orders/Shipments:

To make sure you received all of your items and there is no damage, please inspect the package(s) while driver is still present. You will need to sign the BOL and document any missing/damage items on the BOL before handing back to the truck driver. You can contact us either by Phone, email or fax a copy of the signed BOL with the issue to Shed Windows and More, Inc. If the driver says it's not necessary to sign the BOL this will be inaccurate; when you sign a BOL without notating any damage you assume full responsibility for the shipment, and Shed Windows and More, Inc. cannot be held responsible for the damage product. Freight orders & shipments leave our warehouse in good condition and are packed well.

Shed Windows and More will file all claims with the freight company and credit you once we have received notice of claim payment(s) or resolve.

Returns:

Shed Windows and More, Inc. will accept returns within 30 days if the purchased item(s) have NOT been installed, are still new/unused and in the original condition that they were received. All parts (screws, bolts, etc.) must also be returned with the original item(s). There are no returns on special order or clearance items. If you're returning windows, please pack carefully, as any damage that happens during transit is the responsibility of the customer and no refund will be issued.

The customer is responsible for the return shipping unless:

- Item is broken (We must be notified within 10 days of delivery)
- The wrong item was shipped

Refused Delivery: All refused shipments will be refunded for the item only; minus returned shipping and 20% restock fee at this business's discretion.

Returns on item(s) that were shipped with free shipping will be refunded for the original price of the item; less than the amount it cost us to ship the item(s) to you. If Shed Windows and More, Inc. is at fault, a prepaid tag will be sent.

Damaged FedEx, UPS & USPS Orders/Shipments:

FedEx, UPS & USPS orders are inspected and carefully packed by our warehouse staff and leave our warehouse in good condition. If your order arrives damaged, you will need to email us photos using the following email address info@shedwindowsandmore.com, all damage windows must be reported within 5 days of receiving the package(s). When sending an email please include your order number, name, address, and phone number. Once we receive your email, we will contact you and either offer a discount, replacement, or refund.

The following products are primed:

- Playhouse Doors
- Flower Boxes
- Triangle Vents
- Window & Door Headers
- PVC Shutters
- Playhouse Windows

Important - Paint Instructions

The prime is an off white and you will need to paint with an exterior paint that has an LRV value of 55 or higher. We recommend Sherwin-Williams Vinyl Safe Paint, available in about 100 different color choices. Due to heat absorption from the sun, vinyl tends to warp or buckle, a vinyl safe paint will resist warping and buckling, due to UV inhibitors. The manufacture voids all warranty if NOT painted with PVC grade paint that has an LRV value of 55 or higher.

SWAM Windows

- In high demand
- Priced competitively
- All window sizes come with 5-mil Tempered Glass
- Windows have a thick aluminum trim to keep the aluminum storage and prevents any pulling away from the glass
- Special design spring clip channel to keep spring clips in place
- Windows are offered in Brown (Hershey chocolate brown in a gloss finish)
- *New* a select number of window sizes now come in our new color – Black Flush
- We do not stock Brown J-Channel

Competitors Windows

- In high demand
- Lower price than SWAM Windows
- Windows come in with 3.2-mil Chinese standard float glass
- A select number of window sizes come in Tempered Glass
- Windows have thin aluminum that pulls away from the glass and break seal
- Spring clips held in by a single point where the clips fall out during shipping
- Windows are offered in Brown (Musty/Bronze color with a brown mat finish)
- Do not carry Black windows
- Stocks Brown J-Channel

Low E Double Pane Transoms Windows

Did You Know?

VLT - Visible Light Transmittance

Is the measure of how much light passes through a window.

U-Value

Thermal transmittance, also known as U-Value, is the rate of transfer of heat through a structure. The better-insulated a structure is, the lower the U-Value will be.

R-Value

The capacity of an insulating material to resist heat flow. The higher the R-Value, the greater the insulating power.

The Low E Double Pane Transoms Windows are constructed from polyvinyl chloride (PVC) which will not warp, peel, or corrode. These windows will provide you with years of maintenance free hassles. The Low-E is Triple-Silver MSVD which offers High VLT with low reflectance. Additionally, the Low E Double Pane Transoms Windows come with the following features:

- 3.2 mil Tempered Low E Double Pane Insulated Glass
- R-Value is 3.8
- U-Value is 0.265 with a visible light transmittance (VLT) of ~61%
- Fusion welded PVC frame
- Comes with and without grids
- Easy to install with screw/nail flanges
- 3" dept and 7/8" flange goes all round the window with the flange being 1" from the front and 2" from the back

The Awning/Hopper Insulated Glass is constructed with energy-efficient polyvinyl chloride (PVC) which will not warp, peel, or corrode. These windows will provide years of trouble-free operation and performance. The Awning/Hopper window is versatile as it can be installed by opening up, down, or sideways depending on how you mount. Note: This is an inward opening window that comes with a fusion welded frame and the sash corners prevent water leakage. The operating system features concealed adjustable hinges and lever handle sash lock; when combined with our unique double contact weatherstrip, creates a weather secure window. Additionally, the Awning/Hopper Insulated Glass comes with the following:

- 3/4" nail /screw flange
- Fiberglass Mesh Full Screen
- 3/4" Insulated Glass

- R-Value is 3.8
- U-Value is 0.265 with a visible light transmittance (VLT) of ~61%
- Easy to Install
- Comes with and without grids
- 3" dept and 7/8" flange goes all around the window with the flange being 1" from the front and 2" from the back

Standard Playhouse Doors

The Playhouse Doors are fiberglass doors which will not rot, rust, splinter, warp, dent, or delaminate unlike standard wood and steel doors. Our full-length styles are made from KDAT LVL 3 Poplar that provides a complete waterproof surface on the door's polyurethane core. Top & bottom rails are made from KDAT LVL 3 Poplar. These rails prevent moisture from seeping into the door and the bottom rail accommodates a range of door sweeps.

Playhouse Door Jamb Kit

The Jamb Kit is available in our 24", 48", 60" playhouse doors. The Jamb is designed so that you can hang it on the left or right and be able to have it swing in or out. The Kit comes with three composite pre-drilled trim pieces, weather stripping, fully composite thresholds, and black butt hinges. Additionally, the Jamb will not rot, warp, or sag.

Custom Playhouse Doors

We know sometimes certain projects require certain looks and for cases like these we can help! Call for more information.

Basic Information Needed

- Door Slab Width x Height
- Do you want it pre-hung (hinge, jamb etc.)?
 - If no, do you want hinges installed?
 - If Yes, What hand and swing?
- Do you want the slab to have a design?
- Do you want a doorknob hole?

Add-Ons

- Tempered or acrylic glass installed
- Standard butt hinges or strap hinges
- Different color butt hinges
- Threshold
- Order 1 or bulk it does not matter, we will work with you.

Roll-Up Mini Doors

Color Options

Roll-Up Mini Door Information

Curtain

- 26 gauge galvanized, grade E hard steel
- 5/8" ribbed corrugation
- Stainless steel standard mini latch

Bottom Bar

- ~16 gauge/.067 thick aluminum extrusion
- 1.5" x 1.5" 11 gauge angle
- .047" thick weather strip (astragal)
- 1.5" tall weather strip

Lock

- Stainless steel standard latch comes installed on the exterior side of the curtain (Design for pad locks)

Spring & Tension Bracket

- Single Spring Design
- Precise tensioning capability
- Simple single-handed adjustments
- Spring tension controlled by Worm Gear

Axle/Drum

- 15/16" O.D. steel axle, 14 gauge
- Utilizes 9-1/2", 20 gauge corrugated drums
- Oil tempered, e-coated torsion spring
- Felt strips (Eliminates drum wheel dents)

Note: We will only be stocking the Polar White; all other colors can be special ordered. Please call for more information.

Swing Doors

Swing Doors arrive pre-assembled for quick and easy installation. Are available in matching or accenting colors to complement the existing roll-up doors. Swing Doors are compliant with Americans with Disabilities Act (ADA).

Roll-Up Door Thresholds

The diamond plated threshold is notched and folded to work with roll-up doors to prevent water from penetrating your buildings. The threshold is 8" in depth. Custom sizes can be made, please call for more information.

Aluminum Framed Fiberglass Door

The Aluminum Framed Door comes with textured fiberglass skin. It's designed to screw right into the frame, like a flush mount window. Doors come knob ready, but doorknob is not included. Any of our door inserts can be installed into the Aluminum Framed Fiberglass Door.

Note: There will be several updates to this door as we develop it throughout the year. Call if you have any questions. Custom sizes are available.

The Aluminum Framed Fiberglass Door are available in the following Sizes:

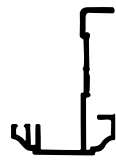

- 30"x72"
- 36"x72"
- 30"x80"
- 36"x80"
- 72"x72"
- 72"x80"

NEW ROLLING DOOR OPENER

SMART
SIMPLE
SECURE

DOMINATOR™ EASYROLLER 14

The Dominator EasyRoller 14™ incorporates bright LED courtesy lighting. The opener comes with Soft Start/Soft Stop operation, advanced door profiling and obstruction sensing for secure and safe operation. The Service indicator lets you know when it is time to service your door. EasyRoller 14™ is suitable for use on doors up to 14ft.

The TrioCode 128 remote control ensures secure and reliable home access. It transmits on three frequencies to defeat radio interference, and uses a 128-bit encryption protocol (with trillions upon trillions of random codes) for the ultimate in security.

DOMINATOR™ CLASSIC

Dominator™ Classic offers great value for money. Its easy to use, quick to install wireless wall button, can be located anywhere in the garage without the need to fix wires. It also includes a standard courtesy light, and for convenience a service indicator reminds you when your door needs servicing.

The TrioCode 128 remote control ensures secure and reliable home access. It transmits on three frequencies to defeat radio interference, and uses a 128-bit encryption protocol (with trillions upon trillions of random codes) for the ultimate in security.

36" x 79"	1-3/4"	Smooth	N/A	Yes

Custom doors are available, please call for more information.

Preparing, Mounting & Installing

We are happy to help you by preparing hinges, knob holes, pre-hanging your door, installing inserts and much more. All work is done in-house with quick turnaround times.

Door Inserts

We carry variety of door light inserts. The following are available:

- 4 Lite Transom
- 6 Lite Craftsman
- 1 Lite Full/Half Glass
- 9 Lite
- 11 Lite Arch Top
- 15 Lite Full Glass

And all sorts of decorative glass

Fiberglass/Steel Doors Jamb Kit

The Door Jamb Kit is available for our fiberglass and steel doors. The Jamb is designed to hang from the left or right and to swing in or out. The Kit comes with three composite pre-drilled trim pieces, weather stripping, fully composite threshold & black butt hinges.

Size	Thickness	Material
30" x 72"	1-3/4"	Smart Siding or T1-11
36" x 72"	1-3/4"	Smart Siding or T1-11
30" x 78"	1-3/4"	Smart Siding or T1-11
36" x 78"	1-3/4"	Smart Siding or T1-11

T1-11/Smart Siding Doors

The Smart Siding Doors are built to be the same thickness as a standard fiberglass door which are perfect for replacements or for new constructions. They're made from T1-11 and LP Smart Siding. The Smart Siding Doors are come pre-hung and are available with or without the transom window.

Pre-Hung Doors Program

Are you tired of extended long lead times on pre-hung doors? Well, we have just the solution for you. Shed Windows and More, Inc.® is now introducing our pre-hung door program. Since we process and hang doors ourselves and not through a third party, we have a lot of control and have faster turnaround times on doors.

The program will allow you to get approved specs and then have them prepared and ready for you for release, so that they can be shipped next day. Customers who are not on the program will see turnarounds ranging from 1 to 2 weeks, which is still a fraction unlike the rest of the industry. You can join the program by just calling us and supplying us the below information.

Basic Information Needed

- Do you want a single door or double door?
- Fiberglass, Steel, or Wood?
- Select Door: Width x Height (Single Door)
- Select Door: Width x Height (Double Door)
- Do you want it pre-hung (hinge, jamb etc.)?
 - If no, do you want the hinges prepped?
 - If Yes, please answer the following:
 - Do you want a wood or composite Jamb?
 - Jamb Size (4-9/16" or 6-9/16")?
 - Hinge Finish (Black or Brushed Nickle)?
 - What is the hand and swing of the door?
- Do you want the knob/dead bolt hole prepped?
- ADA low profile, Aluminum or Composite TRH?
 - Do you want weather-stripping?
- Do you want a standard or Dutch door?

Add-Ons

- Trim (Brick Mold, Florida BM, Flat Trim)
- Stain grade Jamb (Wood or PVC)
- Side Lite
- Window insert (9 lite, 11 lite, 15 lite etc.)
- Louvered insert
- Dutch door shelf
- Astragal (steal/aluminum/plastic/wood)
- Want your door painted?
 - If yes, we will have your door professionally painted.

Ramp Door

For those who have been asking us over the past several years, we have completed our Ramp Door System. Modeled after a trailer door which uses a spring system. Our Ramps require little effort to open and close and are fully customizable. We can customize the size, material, and design, please call for more information.

Door Material

- Wood
- LP – Steel Flush
- 6 Panel Fiberglass – Smooth
- Textured Trimmed
- 6P

Sizes

- Widths: 48", 60", 72", & Custom Sizes
- Height: 72", 74", 79", 84", 96", & Custom Sizes

Weight Capacity

- Wood: 1800 lbs.
- Steel: 3500 lbs.
- Fiberglass: 4000 lbs.

Trim Designs

Give your door style by selecting a trim design to go over your door. All you have to do is tell us what you are looking for, and provide a drawing or picture, then we can take care of the rest. Note: Doors and trim do not come painted. If you wish to have the doors/trim painted you will need to specify this option when ordering, no stains are available at this time.

Access Doors

The Access Doors are perfect for any new constructions or replacements. They're made from PVC and will not rot or warp. This door is great for small areas such as crawl spaces and attic voids.

Sizes:

50 Sq. Inch and 75 Sq. Inch

Tempered Glass Insulating Skylight

The Tempered Glass Insulating Skylight offers the best of all worlds in an efficient insulated skylight. It offers an outer tempered glass pane and unbreakable polycarbonate inner pane. This means better insulation than traditional insulated glass with the security of polycarbonate. These skylights cannot leak.

- Available Sizes:
- 16" x 32"
 - 16" x 48"
 - 24" x 24"
 - 24" x 36"

MADE IN THE USA

Polycarbonate Insulating Skylight

The "Glass-like" Polycarbonate Skylights come with an integral continuous polycarbonate lens that does not conduct cold like glass. No need for condensation gutters or weepholes. These skylights cannot leak.

- Available Sizes:
- 14-1/2" x 14-1/2"
 - 14-1/2" x 30-1/2"
 - 22-1/2" x 22-1/2"
 - 22-1/2" x 30-1/2"

MADE IN THE USA

One of the biggest questions we receive is, ‘How do I get my brand out there and recognized?’ We have come up with a solution for that! We offer branded products a feature within Shed Windows and More. What if you don’t have a logo or don’t want to have your logo on your building? Now the beauty behind us is that we can custom make almost anything. If you come up with an idea, we can make it exclusive to you. If you have any questions or are interested in learning more, please call for more information. All our branded products are designed by us or in conjunction with you.

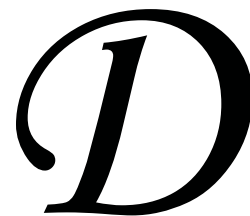

Branded Gable Vent

The Branded Gable Vent replaces the cheap aluminum vent that most builders place near the peak of their gable. We have the capability to match your pitch and add any design to the center by either having it cut out or engraved into it. This vent has better air flow and is made from PVC which includes the screen.

Letters or Trim Decorations

Branding is important and letters can be an effective way of identifying your building. If a letter is not your idea of branding, a trim kit that you place on your building, gable, door, above or below your doors or windows can be a good alternative.

Branded Gable Pediments

Custom Gable pediments are great way to add unique character to your building and really make it stand out. There are two different ways to do a gable pediment. The first is to surface mount it to your building. When we build a surface mount pediment, we tend to use 5/8” PVC. The second way is to ridge mount the gable pediment where it sticks out away from your building along the roof's edge. This is the standard method for residential. As far as the designs we have several standard designs to choose from, or we will work with you to make a design exclusively for you.

Custom Skinned Catalog

A custom skinned catalog is just what it sounds. We take our current catalog and use your branding, your building photos, your story and add/switch out our information. You still get all the product information so you can share it with your customers and really make your business stand out.

For more information, please give us a call at 843-399-1820 and ask for Thomas

Graphic Design Services from SWAM

In today’s world, there is a lot of graphic and web companies popping up and taking advantage of small businesses. After years of hearing this, we at Shed Windows and More, Inc. are stepping in to help. We have a dedicated graphic design and web team here to help you with any of your business needs. Our goal is to give you affordable high-quality work to excel and help grow your business.

If you have any questions or would like to learn more about our services, please give us a call at 843-399-1820, and ask for Thomas.

Uncased MDF Interior Doors

Uncased MDF Doors are solid 1-3/8" doors that do not have casing "fiberglass skin" covering. This allows us to mill and create any design. The Uncased MDF Doors are designed for interior use only as MDF does not hold up to the outside elements. MDF Doors are a nice addition and can be painted. This door can come as a slab only or pre-hung.

Sizes

Custom sizes are available between the following sizes:

- 16" x 16"
- 48" x 96"

Options

- Glass (Tempered/Plexi) with and without grids
- Dutch Door options available
- 4 Sided Jamb
- Magnetic Catch
- Ball Catch

Designs

- Flush
- Raised Panel
- Arched Raised Panel
- Flat Shaker Panel
- Radiant Barrier
- Custom Designs

Please call for more information

Extira Doors

Extira Panels may look like MDF Doors, but their performance is different. The panels are patented, and proprietary manufactured process leads to a superior product. The Extira is an exterior Door and is also designed for outside elements. This door is perfect for any shed or access door application.

Sizes

Custom sizes are available between the following sizes:

- 16" x 16"
- 48" x 96"

Designs

- Flush
- Raised Panel
